PROFESSIONAL SUMMARY

IT support and endpoint specialist with 2+ years of hands-on experience administering Microsoft 365, Entra ID, and Intune across multi-site and multinational organizations. Led the Intune/endpoint management layer for a multi-site FMCG deployment, including PowerShell automation that cut manual provisioning time. Cisco-certified in ethical hacking and junior cybersecurity analysis, with independent applied work in security research pipelines. Fluent remote support for non-technical users under SLA, across Windows, macOS, and Linux. Bilingual EN/FR with professional German translation experience (document translation at Simon Hegele Logistics & Service).

Seeking remote or local IT support, helpdesk, endpoint administration, or junior security analyst roles.

WORK EXPERIENCE

Independent — Self-Directed Study & AI Training | Remote · Nov 2024 – Present

- Contract AI-training work with a distributed employer.
- Self-directed study toward Cisco cybersecurity certifications, obtained Aug–Sep 2025.
- Independent project development in security research and applied AI — see Notable Projects.

Technical Consultant | Confidential Early-Stage Startup · Oct – Nov 2024 · San Francisco, CA

Short-term on-site engagement; details available on request

- Provided on-site technical consultation during a critical product development phase, supporting architecture decisions and operational IT planning for a small founding team.

IT On-Site Administrator | Simon Hegele Logistics & Service · Jun 2023 – Dec 2023 · United Kingdom

International logistics organisation

- Administered user accounts, access controls, and licence management via Entra ID for a multinational logistics workforce.
- Administered an in-house MDM solution covering device lifecycle, provisioning, and compliance across Windows, macOS, and Linux.
- Maintained and configured network infrastructure including switch port configuration, VPN, and connectivity diagnostics.
- Authored and translated technical documentation between German and English, ensuring consistency across multinational teams.
- Onboarded and trained new users on internal IT systems and security policies.
- Prioritised tickets by business impact and managed hardware and software inventory.

IT Helpdesk Technician | Valeo Foods (Rowse Honey site) · Apr 2022 – Jun 2023 · Wallingford, UK

Multi-site FMCG organisation — Irish parent group, UK food manufacturing

- Administered Microsoft Intune / Endpoint Manager across the organisation — device enrolment, policy management, and compliance for Windows, macOS, and Linux endpoints.
- Built and maintained PowerShell automation scripts for Intune endpoint provisioning and configuration, reducing manual provisioning and configuration time.
- Delivered first- and second-line support for Active Directory, Microsoft 365 (Exchange Online, Outlook, Teams, SharePoint, OneDrive), and networking across multiple production sites.
- Triaged and resolved support tickets in JIRA against SLA targets; authored knowledge-base articles that reduced escalation rates.
- Provided remote support via TeamViewer, Quick Assist, Microsoft Remote Desktop, and Trilogy for users including non-technical operations staff with minimal IT literacy.
- Administered Entra ID (Azure AD) — user accounts, MFA, Conditional Access, and licence management.
- Administered Sophos endpoint security alongside ClariSOFT, IFS ERP, and SharePoint.
- Performed hardware diagnostics and upgrades (HDD-to-SSD migration, RAM, battery replacement) and managed Windows 10/11 patch and update cycles.
- Trained and mentored new hires and interns on internal systems and standard IT procedures.

IT Lead (Volunteer) | Article 116 Reconciliation Group · Oct 2018 – Present · Remote

Registered charity

- Lead IT infrastructure and administration for two charity websites; manage volunteer onboarding and the Google Workspace environment.
- Provide ongoing remote IT support and translate organisational documentation between English and German.

TECHNICAL SKILLS

Microsoft 365 & Identity: Exchange Online · Outlook · Teams · SharePoint · OneDrive · Entra ID (Azure AD) · MFA · Conditional Access · user provisioning · licence management · mail-flow troubleshooting

Endpoint Management & MDM: Microsoft Intune / Endpoint Manager · in-house MDM administration · device lifecycle and compliance · Windows 10/11 imaging, deployment, and patch management · Windows, macOS, and Linux support

Scripting & Automation: PowerShell — Windows administration and Intune endpoint scripting · Python — operational automation and tooling · Bash · JavaScript / HTML / CSS · Go — helpdesk tooling

Networking: TCP/IP · DNS · VPN · Wi-Fi diagnostics · switch port configuration · connectivity troubleshooting

Security: Sophos endpoint security · EDR alert triage and escalation · phishing identification · Wireshark packet analysis · vulnerability assessment · ethical hacking methodology · CTF and bug-bounty research

Ticketing & Documentation: JIRA — triage, SLA management, knowledge-base authoring · technical documentation in English, French, and German

Remote Support: TeamViewer · Quick Assist · Microsoft Remote Desktop · AnyDesk · Trilogy

CERTIFICATIONS

- Feb 2026 — Google AI Essentials — Google
- Sep 2025 — Junior Cybersecurity Analyst Career Path — Cisco
- Aug 2025 — Cisco Ethical Hacker — Cisco
- 2021 — Advanced Cyber Security (course) — EC-Council

LANGUAGES

- English — Native
- French — Fluent — working professional; conversational spoken
- German — Advanced — professional technical document translation (DE↔EN) at Simon Hegele
- Russian — Intermediate

NOTABLE PROJECTS

PHANTOM — AI-Assisted Security Research Pipeline: Built an autonomous research pipeline integrating Claude Code, ChromaDB, and a locally hosted LLaMA model via Ollama for AI-assisted vulnerability pattern recognition on public CTF and bug-bounty datasets.

GENESIS — Evolutionary AI Simulation: Designed and ran a substrate-independent evolutionary AI system on consumer GPU hardware (RTX 3060), completing multiple independent runs that confirmed emergent evolutionary dynamics.

EDUCATION

Full Stack Developer Programme · 01 Founders, London · 2022 – 2024

European Baccalaureate · Europa School Culham, UK · 2018

English, French, German, Mathematics, Philosophy, Geography, History, Biology, Physics
